

Vahinthan Raseetharan

Software Engineer Intern

+94 70 506 9621 | Raseetharanvahinthan2003@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFILE SUMMARY

Passionate Software Engineering undergraduate at SLIIT with hands-on experience in full-stack web and mobile development. Proficient in Java, JavaScript, React Native, Node.js, and MySQL, with a strong foundation in OOP, MVC architecture, and RESTful API development. Backed by 2 years of professional experience in online management, bringing a unique combination of technical skills and organizational ability. Actively seeking an internship opportunity to apply and grow my skills in a real-world software development environment.

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, Java
- **Frontend:** React.js, Next.js, Tailwind CSS
- **Backend:** Express.js, Node.js
- **Databases:** MongoDB, MySQL
- **Cloud & DevOps:** Docker, Vercel, GitHub Actions
- **Tools & Others:** Git, Postman, Google Docs

EXPERIENCE

ONLINE MANAGEMENT ASSISTANT – KALVI INSTITUTE (REMOTE)

Managed student databases, coordinated online sessions, and handled student queries.

Jan 2021 – Dec 2022

Managed entire monthly accounts of the institute.

Supported virtual class operations and scheduled live ICT support sessions.

PROJECTS

Used Car Sales & Purchase Platform *(Academic Project)*

- Developed a full-stack web application using Java, JSP, Servlets, and MySQL to manage second-hand car listings with dynamic data handling and file management.
- Implemented complete CRUD operations with a layered architecture using separate DAO, Model, and Servlet components following OOP principles.
- Built responsive JSP-based interfaces and integrated a Linked List data structure with Merge Sort algorithm for efficient car price sorting

Hotel Reservation System for Special Events *(Academic Project)*

- Developed a full-stack web application using Java, Spring Boot, and MySQL to manage hotel reservations during special events and peak seasons.
- Implemented CRUD functionalities with real-time room availability tracking and a structured booking workflow to prevent double bookings.
- Applied MVC architecture in Spring Boot to separate business logic, data access, and presentation layers for clean and maintainable code.

Hostel Management App — Sithulya Girls Hostel *(Academic Project)*

- Developed a cross-platform mobile application using React Native, Node.js, MongoDB, and Android Studio to digitize and streamline hostel operations.

- Implemented modules for resident registration, room allocation, and payment tracking, replacing manual processes and reducing administrative workload.
- Integrated RESTful APIs between the React Native frontend and Node.js backend with MongoDB schema design for scalable data management.

ACHIVEMENT

National-Level Chess Player – Represented school at national chess tournaments.

EDUCATION

BSc (Hons) in Information Technology – Specializing in Software Engineering	Oct 2024– Present
Sri Lanka Institute of Information Technology, Malabe, Sri Lanka	
Secondary Education	Jan 2014 – Oct 2022
Hartley College, Jaffna, Sri Lanka	
Advanced Level – Mathematics (Physical Stream)	

LANGUAGES

English – Advanced | Tamil – Native | Sinhala – Intermediate

INTERESTS

Software Development (Frontend and Backend) | AI Integration | Web Technologies | Mobile App Development
